A delay in the reporting of an individual's death during this pandemic is often attributed to ensuring the death is accurately classified based on the most up-to-date federal guidance for determining a COVID-19-related death. Visit the COVID-19 Deaths in South Carolina chart on the SC Testing and Projections webpage for all deaths by date of occurrence.

A system upgrade with DHEC's Office of Vital Statistics has led to delays in deaths being reported in a timely fashion by coroners and other medical certifiers who confirm and record death information in South Carolina. DHEC first announced enhancements to the Vital Statistics system in December. Although the system operated smoothly during trials with the vendor, once the system went live in early January, DHEC's Vital Records became aware of system glitches and immediately contacted the vendor as well as users of the system to have the problems fixed as quickly as possible.

While the vendor worked to remedy the issues, DHEC's Office of Vital Records dedicated a 24-hour phone number to assist coroners and others who use the database. The updated Vital Statistics system is now fully operational.

Due to this Vital Statistics system upgrade issue, today DHEC is announcing 242 confirmed and probable COVID-19 deaths for individuals who died over the last several weeks. This report contains the detailed breakdown of each death by date of occurrence.
